

PRATIK PARIHAR

Ahmedabad, Gujarat | +91 7984943302 | pratikparihar.me@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Full-Stack Developer with expertise in building scalable AI-driven automation and real-time systems, leveraging modern web stacks to engineer high-impact software solutions.

EDUCATION

B.Tech - Computer Science & Engineering |

2023 – 2027

SAL Institute of Technology & Engineering Research, GTU | CGPA: 9.43 / 10

- **100% Merit Scholarship for bachelors (TFWS)**
- **Devang Mehta IT Award: #1st Rank × 2, CSE Branch (2022–23 & 2023–24)**
- **Industry-Led Minor degree : AI & Machine Learning - Infosys Springboard × GTU**

Higher Secondary (12th) - GSEB | **75%**

2022–2023

Secondary (10th) - GSEB | **87%**

2020–2021

WORK EXPERIENCE

Software Trainee (Full Stack Development) - Dynamic Methods Solution

June – July 2026

- Built **ApplyAgent**, an **AI-powered job application automation platform**, using **MERN stack** and **FastAPI**-based **RAG pipeline** for semantic resume parsing and automated candidate outreach.
- Designed and implemented a custom "**Candidate Intake**" module in **Odoo 17** with a custom **state machine** and **Many2one** relational links to core HR models.
- Independently owned **full-stack architecture**, **backend API design**, and **frontend integration** under a compressed timeline.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Streamlit, Socket.io, Tailwind CSS

Databases: MongoDB Atlas, PostgreSQL, SQLite

Tools & Platforms: Git, GitHub, Docker, Vercel, Render, Postman, Cursor, Azure, Odoo

Concepts: REST APIs, Microservices, WebSockets, Real-Time Systems, Client-Server Architecture, System Design

PROJECTS

Nanosat Ground Station Controller (NGSC) | Python, Streamlit, Skyfield, Plotly, Pandas | [Live Demo](#)

Real-time data dashboard with live API integration - streams, decodes, and visualizes satellite telemetry via modular multi-layer architecture.

- Integrated live **Celestrak TLE API** for real-time orbital data ingestion; built **SGP4 propagation pipeline** with **Plotly**-powered ground track dashboard.
- Engineered a 24-hour **pass prediction engine** with persistent **CSV** telemetry logging across decoupled physics, data, and UI layers.

Pattern Vault | Node.js, Express.js, MongoDB Atlas, JWT, HTML5, CSS3, Render | [Live Demo](#)

Secure full-stack note-taking app with stealth authentication - pattern-recognition login routes users to a hidden private workspace.

- Engineered a client-side **Virtual Router** enabling seamless switching between public decoy state and private authenticated vault with zero page reloads.
- Implemented stateless **JWT authentication** with **bcrypt** password hashing and **MongoDB Atlas** persistence via **Mongoose**.

ApplyAgent | Python, FastAPI, ChromaDB, LangChain, React, Socket.io | [Live Demo](#)

AI-powered job application automation platform - semantic resume parsing, company discovery, and personalized outreach generation.

- Built **RAG pipeline** via **ChromaDB** and **sentence-transformers** with **SSE**-streamed company discovery and **LLM**-generated personalized cover letters.

Cartoon-Snap Game | Node.js, Express.js, Socket.io, Render | [Live Demo](#)

- Real-time multiplayer card game with synchronized game state and server-side anti-cheat logic, deployed to production.

EXPOSURE & HACKATHONS

- **ISRO Space Applications Centre (SAC) - Deep-Dive Exposure Program** | Jan 2026 - 1 of 38 selected from 500+ applicants to contribute to GTU's first nanosatellite.
- **GTU Ideathon 2024 (Finalist)** - Agrisakha - Team Lead & Presenter
- **Sparkathon 2024, Walmart** - Team Lead & Presenter

CERTIFICATIONS

- Agentic AI: MCP for Production Automation - HuggingFace Academy (May 2025)
- Applied Generative AI Certification | OpenAI GPT-3 for Developers - Infosys Springboard (2026)
- Microsoft Certified: Azure Fundamentals (AZ-900) & AI Fundamentals (AI-900)
